enlightenment comes from Pittsburg on this subject. Bearing in mind the fact that the dynamite conspiracy was engineered and maintained by the American-Irish we read with lively interest that the Pittsburg meeting was presided over by the Mayor of that city. The resolution adopted contains considerable savor of dynamite conspiracy. What does Mr. Clancy think of it as proof of his assertion that the dynamite conspiracy has ceased to exist?"

The Morning to-day, commenting on the Pittsburg meeting, says: "We suppose that the secret service organized by the revolutionists means a revival of our old friends, dynamiters like Daly, Gallagher and the Phoenix Park assassins, who were hanged in London. It is not likely that this movement will prove more formidable than its precursors. The Irish, by those from America and their friends here, did their best to terrorize the English people and failed. They will fail again if they

LONDON, Aug. 17.-The annual meeting of the Cobden Club took place to-day. Australia and the colonies, he added, hai not found that protection obviated depression. The prospects in the United States were promising, he continued, if that country was rid of its currency troub'es, in which case he believed that a period of would find that the modifications made in the McKinley bill had not ruined them. The report of the committee, a synopsis of which was cabled last night, was then read and adopted. The report declared that the change brought about by the re-cent general elections is calculated to stimulate the club to fresh vigilance; but while the direct advocacy of protection doctrines was less conspicuous during the election of 1894 than in 1886, there are elements in the new Parliament which demand special watchfulness in the interes's of free trade. Referring to the depress on of agriculture the report said that nothing is so likely to hinder a satisfactory per-manent solution of the problem as reopening the question of a revival of the duties on importations of foreign and colonial agricultural and other produce.

COUNTY CONVENTION AT CLEVELAND CAPTURED BY SILVERITES.

FRENCH & THOMPSON.

Separate Meeting Held by the Brice

CLEVELAND, O., Aug. 17 .- The Democratic county convention to select delegates to the State convention, to be held next Tuesday and Wednesday, at Springfield, was called to order at 10 o'clock this morning. After a red-hot fight Alfred Whittaker was elected chairman over James Lawrence by a vote of 2271/2 to 1891/4. The selection of Whittaker as chairman was a decided victory for the free-silver and anti-Brice factions. A motion by a free-silver delegate to appoint a committee of seven to select delegates to the State convention caused a row that for a time threatened to result in more than a war of words. The fight resulted in a number of the gold and Brice men, headed by James Lawrence, retiring from the hall with the announcement that they would at once hold a "rump" convention. After their withdrawal, the motion to select a committee of seven to select delegates to the State convention prevailed. This committee, as selected, was composed entirely of free-silver and anti-Brice men.

The seceders, to the number of about seventy-five, at once went to another hall, or-ganized and elected fifty-nine delegates to the State convention. Resolutions were adopted condemning the methods pursued by the so-called regular convention, and, after giving three rousing cheers for Senator Brice, adjourned.

Populist Power Writes a Letter. DENVER, Col., Aug. 17.-The Rocky Mountain News will print to-morrow an open letter to all Populists, written by C. A. Power, of Terre Haute, Ind., who organized the Cincinnati conference of 1891. which resulted in the Omaha convention of the national People's party. He describes the party's present condition, and reviews the objects to be sought, among the latter being an amendment to the Constitution depriving the President of the veto power. In part the letter says:

Omaha events have occurred that have materially changed the situation. Now, instead of a government by the people, we find Caesarism full blown in the person of Grover Cleveland, governing the American people. In this emergency what shall we do? Drift with the tide, without an effort to reform our lines or take on an additioal load of political 'hodge podge' made up of prohibition, socialism, single tax and Coxeyism, and plunge blindly into the sea of absolute destruction at the next I heartily second Standish's suggestion the People's national convention not later than Jan. 8 or Feb. 22 Our cause is growing, no doubt, but party organization is not at present.
